This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. A. T. CROSS,

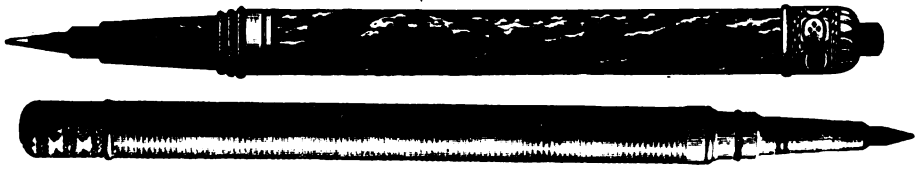
MANUFACTURER OF

PEN and PENCIL CASES, and STYLOGRAPHIC PENS.



U. S. PATENT, Aug. 29, 1882. PATENTED IN ENGLAND.

Factory and Office: 53 WARREN ST., PROVIDENCE, R. I.

I take great pleasure in presenting to the trade this illustrated circular of my lately perfected, neat, substantial, and convenient pocket-pencil, made in various styles, adapted for the use of all classes, and for which I claim superior excellence over any pencil ever placed in the market.

The ordinary grip pencil lately introduced to the public, needs constantly recurring care and attention to adjust the lead properly, and the working parts of such pencils are liable, at any moment, to become unreliable and useless; whereas, my invention, which consists in what is known as a propelling and repelling pencil, is made strong and durable in all its parts, and embodies the new and prominent feature of automatically expelling the unused remnant or stub of lead from the lead-carrier, thus avoiding the necessity for a knife or other instrument to pick or thrust out the stub, as heretofore, in order to supply a new lead to the carrier of the pencil.

A new lead may be instantly inserted into the empty carrier without removing the point of the pencil, or adjusting any of the parts.

The leads manufactured by the Dixon Lead and Crucible Co. are recommended for use in the A. T. Cross Business Pencil, and are furnished by me, in packages suitable for the trade.

PLEASURE DRIVES.

Few inland towns afford, to the lovers of rural drives, as pleasant a surrounding country as Worcester. For the benefit of those who may not prefer to explore for themselves, we give a few directions.

All the roads to the surrounding towns lead through pleasant farming districts, but late in the season, when drought and a hot sun have rendered these frequented routes less agreeable, there are many charming by-paths which retain the freshness of early Summer.

Elm Tree Drive.—From Lincoln street, leaving City Farm on the left, pass Lake Quinsigamond. Then take first turn to the right. This road leads out to Belmont street beyond the Causeway.

Lily Pond Drive.—Turning from Lincoln street into Boylston street take the first turn to the right leading round the head waters of Lake Quinsigamond and into Elm Tree Road.

Bannister Mill Drive.—Turn from Lincoln street into Boylston street. Take the third turn to the right, a narrow way through the woods, somewhat overgrown, and after passing the mill take first turn to the right. This road leads out on the Lily Pond road.

Bowlder Drive.—First turn to the right from Boylston street after passing Mr. Gough's place; follow this road to the third turn, which leads to Shrewsbury, past a curious Bowlder on an eminence at the right.

The Reservoir Drive.—Main road to Leicester. At Cherry Valley turn to right, and, keeping to the right past the Reservoir, descend Sylvester hill into Tatnuck.

Bryants' Woods.—From Leicester village take road to Paxton, first turn to left, and continue about two miles to Pudding Corners schoolhouse, leaving that on the left these beautiful woods are immediately ahead.

Greenwood Road Drive.—Main road to Quinsigamond village, just beyond, keep to the right, and round by the left to the Millbury road; thence, the right turn leads to that town, the left back to Worcester.

Old Common Drive.—Main road to Millbury. Turn to the right by the Millbury Bank; keep the straight road, leaving Bramanville on the left; the old common, about a mile from Millbury village, lies at the top of the hill, which is the site of the earliest settlement in the town—the original Millbury village; turn to the right down the hills, which give pleasant views, into the Greenwood road and straight back to town.

Flagg's Retreat Road.—From Greenwood road, second turn to the right, about three miles to railroad crossing, pass this, and turn to right, then to right again to Southbridge street. Drive out through Southbridge street to the Auburn station, turn to the left over the railroad, and keep straight on this road, coming down Mt. St. James, by the Holy Cross College, into Southbridge street. A beautiful drive, with pleasant views.

Davis Cottage Road Drive.—Main road to Grafton, second turn to left; take the second turn again to the left, this road leads to the old Boston turnpike; turn to the left, come back over the Causeway at the lake.

South Ledge Drive.—From Winthrop street leaving Mr. Crompton's residence on the left, turn into Granite street, which leads past the South Ledge, and through the woods to the Millbury road.

Holden Poor Farm Drive.—From the main road to Holden, take second turn to the left, then first turn to right. Pass the Holden Poor Farm, turn again to the left and back to Worcester through Salisbury street. Part of this drive through the woods is rough, but beautiful.

Silver Spring Drive.—From the Paxton road beyond Tatnuck the second turn to the right leads to the little spring in a grove at the right, where seats have been placed for picnic parties. From the top of the hill beyond the grove, a fine view is afforded, and following the road down the steep descent and turning to the right, it leads back to Tatnuck.

Silver Cascade.—Holden road from Tatnuck, first turn to the left, past Mr. Stephen S. Foster's, then to right into a narrow overgrown road. The little stream, which in the Spring is sufficient to form a pretty cascade, comes down the hill on the left.

Stone House Hill.—Same road from Tatnuck to Holden, first turn to right about 1-2 mile beyond residence of Mr. F. J. Kinney and go to the end of the road. A walk through the pastures leads to the Ledge of Rocks, which gives the name. During the stormy times preceding the breaking out of the revolutionary war, the royalist residents in Worcester, fearing violence, retired to this place, making some additions to the natural defences of the situation, which afterwards received the name of the Tory Fort.

Bellevue Drive.—Holden and Tatnuck road, second turn to right, second turn again to right, then first turn to left, then first turn to right and back to town. At one point on this road there is a pretty view of Monadnock and Wachusett mountains.

Mulberry Grove Drive.—Paxton road, about a mile beyond Tatnuck, turn to left, and keeping to the left, cross to Leicester.

Happy Valley.—In West Boylston about six miles from City Hall—a small grassy intervale surrounded by wooded hills, picturesque and secluded. Follow Burncoat street to City line and continue on about two miles beyond Summit station, turn to the right, pass residence of Geo. T. Brigham, and where the fence on left of road ends, turn immediately to the left and a blind carriage way takes you into the Happy Valley.

Asnebumskit Hill.—Main road to Paxton three or four miles beyond Tatnuck. Carriages left at a farm house on the road side. Ascent made on foot. The summit of Asnebumskit can be reached also from the Holden side. Holden road through Tatnuck, take second turn to left, after passing residence of Mr. F. J. Kinney. Carriages can be left at farm house at foot of hill, or at a deserted farm house lying about half-way up. This route is the shortest and gives a nearly level road, but calls for the most climbing after leaving carriages. Distance from Worcester to top, about seven miles. A rough path, which can be traversed afoot or mounted, connects the two sides. This hill (1407 feet above tide water), excepting Wachusett (2008 feet) is the highest point in this part of the State, and gives on the north a fine view of Monadnock (3186 feet), and of the Green Mountains beyond. It is hoped a carriage road will soon be made, to enable all to enjoy the fine view from this hill.

Purgatory.—This remarkable chasm lying in thick woods in the southeast portion of the town of Sutton is some 30 feet wide and more than 1000 feet long, while the depth, in places, reaches nearly 60 feet; the view of the rocky walls and overhanging ledges is picturesque and impressive. It is a resort for woods parties. Take direct road to Millbury and pass through Sutton village, or Wilkinsonville. Distance from Worcester about 16 miles.

Wachusett Mountain.—This hill, one of the highest in the State (2008 feet above tide water), lying in the north part of the town of Princeton, furnishes a view covering nearly the whole extent of Massachusetts. At the north the Green and White Mountain ranges are in full view, and with the aid of a glass vessels can be seen under sail in Boston harbor. The distance from Worcester is about seventeen miles, through woods and pleasant farming districts, the most direct roads being the continuation of Salisbury street, or Holden street, through the town of Holden.

METRIC SYSTEM.

MASSACHUSETTS LAWS AND RESOLVES, 1877.

CHAP. 40.

An act in relation to the METRIC SYSTEM of Weights and Measures.

Be it enacted, &c., as follows:—

SECT. 1. That from and after the passage of this act it shall be lawful throughout the Commonwealth of Massachusetts to employ the weights and measures of the Metric System, and no contract or dealing or pleading in any court shall be deemed invalid or liable to objection because the weights or measures expressed or referred to therein, are weights and measures of the Metric System. The metric weights and measures received from the United States, and now in the treasury of the Commonwealth, may be used and taken as authorized public standards of weights and measures; and these authorized standards shall in no case be removed from the treasury except under necessity for their preservation or repair.

SECT. 2. The following tables shall be recognized in the construction of contracts, and in all legal proceedings, as establishing in terms of the weights and measures now in use in the State of Massachusetts, the equivalents of the weights and measures expressed therein in terms of the Metric System; and said tables may be lawfully used for computing, determining and expressing in customary weights and measures the weights and measures of the metric system. **For Metric tables see Index.**

THE METRIC SYSTEM.

LEGALIZED BY ACT OF CONGRESS, JULY 27, 1877; BY ACT OF MASSACHUSETTS LEGISLATURE, MARCH 10, 1877.

MEASURE OF LENGTH.

Metric denomination and value.		Equivalent in denominations in use.
Millimeter	1-1000 of a meter.	.0394 inch.
Centimeter	1-100 of a meter.	.3937 inch.
Decimeter	1-10 of a meter.	3.937 inches.
Meter	1 meter.	39.37 inches.
Dekameter	10 meters.	393.7 inches.
Hektometer	100 meters.	328 feet 1 inch.
Kilometer	1,000 meters.	.62137 mile, or 3,280 feet 10 inches.
Myriameter	10,000 meters.	6.2137 miles.

MEASURE OF CAPACITY.

Metric denomination and value.			Equivalent in denominations in use.	
Name.	Number of Liters.	Equivalent in Cubic measure.	Dry measure.	Liquid or Wine Measure.
Milliliter	1-1000	1 cubic centimeter.	.061 cubic inch.	.27 fluid dram.
Centiliter	1-100	10 cubic centimeters.	1.6102 cubic inch.	.338 fluid ounce.
Deciliter	1-10	1-10 of a cubic decimet'r	6.1022 cubic inches.	.845 gill.
Liter (Leeter)	1	1 cubic decimeter.	.908 quart.	1.0567 quarts.
Dekaliter	10	10 cubic decimeters.	9.08 quarts.	2.6417 gallons.
Hektoliter	100	1-10 of a cubic meter.	2 bushels and 3.35 pecks.	26.417 gallons.
Kiloliter	1,000	1 cubic meter.	1.308 cubic yards.	264.17 gallons.

WEIGHT.

Metric denomination and value.			Equivalent in denominations in use.
Name.	Number of Grams.	Weight of what quantity of water at maximum density.	Avoirdupois weight.
Milligram	1-1000	1 cubic millimeter.	.0154 grain.
Centigram	1-100	10 cubic millimeters.	.1543 grain.
Decigram	1-10	1-10 of a cubic centimeter.	1.5432 grains.
Gram	1	1 cubic centimeter or 1 milliliter.	15.432 grains.
Dekagram	10	10 cubic centimeters or 1 centiliter.	.3527 ounce.
Hektogram	100	1 deciliter.	3.5274 ounces.
Kilogram	1,000	1 liter.	2.2046 pounds.
Myriagram	10,000	10 liters.	22.046 pounds.
Quintal	100,000	1 hektoliter.	220.46 pounds.
Metric ton	1,000,000	1 cubic meter or 1 kiloliter.	2204.6 pounds.

For Square Measure the square of long measure is used. For measuring land—in the place of acre—the **centar** which is one square meter, equivalent to 1,550 square inches; the **ar** which is 100 square meters, equivalent to 119.6 square yards; the **hectar** which is 10,000 square meters, equivalent to 2.47114 acres, are used.

For Cubic Measure the cube of long measure is used; **ster** is used as a measure of wood in place of cord.

The mill, cent, dime, dollar, and eagle of U. S. money exactly illustrate the decimal system of the metric measures,—the mill, cent, dime, corresponding with the milli, centi, deci of the metric system.

Abbreviations.—For meter, liter, and gram, the small initial letter is used, viz: m. l. g.; each division deci, centi, milli, also is abbreviated by using the small initial letters d. c. m.; but each multiple, deka, hekto, kilo, myria, is abbreviated by using the capital initial letter D. H. K. M.

Equivalents.—1 inch equals .0254 meter, or about 2 1-2 centimeters; 1 foot equals .3048 meter, or about 30 centimeters; 1 yard equals .9144 meter, or ab. 10-11 of a meter; 1 mile 1609 meters, or ab. 1.6 kilometers.

1 U. S. liquid quart equals .946 liter, or a little less than 1 liter; 1 U. S. dry quart equals 1.101 liters: 1 U. S. gallon equals 3.785 liters, or about 3.8 liters; 1 U. S. bushel equals 35 24 liters, or about 4-11 of a hektoliter.

1 avoirdupois ounce equals .02835 kilogram, or a little less than 30 grams; 1 Troy and apothecaries ounce equals .03110 kilogram, or a little more than 30 grams; 1 avoirdupois pound equals .45359 kilogram, or about 5-11 of a kilogram; 1 long ton—2240 pounds—equals 1016.05 kilograms, or about 1 metric ton.

Basis of the system.—1. The unit of length, the meter, is the ten millionth part of a quadrant of the meridian of Paris, being 39.37 inches, nearly. 2. The unit of surface, the ar, is the square of ten meters, or a hundred square meters. 3. The unit of capacity, the liter, is a cube whose edge is a tenth of a meter. 4. The unit of weight, the gram, is the weight of a cube of rain-water, whose edge is an hundredth of a meter. From these four primary units all others are derived according to the decimal scale.

Where used.—The system is adopted by the following countries: in exclusive use in France, Germany, Austria, Belgium, Holland, Italy, Spain, Portugal, Norway, Switzerland, Roumania, Brazil; in partial use in Denmark, Greece, Argentine Confederation, Venezuela; legalized, but not in general use, in the United States, Great Britian, Russia, Norway, Sweden, Turkey, Mexico, Chili, Costa Rica, Equador, Peru, U. S. of Columbia, Uruguay. In Sweden compulsory law will take effect in 1889.

STREET DIRECTORY.

The Street Directory gives the location of each street, and shows what other streets or places run from it or across it, with the number at which they intersect.

From this list the location of any number on a street can be easily ascertained. As, for instance, wishing to know on what part of Main street No. 630 is: turn to Main street, and you find that Austin street runs from 602 right side, and Chandler street from 648, showing that No. 630 comes on the right side of Main street between Austin and Chandler. Dashes are substituted for numbers on streets that are not numbered.

ABBREVIATIONS.—Av. avenue; ct. court; e. east; fr. from; n. north; pl. place; s. south; sq. square; w. west; Wd. ward.

Boulevard. — There is no street properly bearing this name; but, in common usage, the term is applied to Park Avenue upon the western side of the city; and to Lake Avenue, along the west shore of Lake Quinsigamond, from Harrington to Belmont street, (and legally decreed from Belmont street to Lincoln street.) It is intended that these avenues shall connect: at the north, by Lincoln, Melrose, and Millbrook streets; and at the south, by Harrington street from the Lake, thence, striking across, by a road to be constructed, to the wireworks at Quinsigamond village, skirting the foot of Mt. St. James, to Hope Avenue, thence by Webster and Mill streets. This completed, will constitute a grand drive around the city.

FIRE ALARM TELEGRAPH.

Under charge of Joint Standing Committee on Fire Department.

Superintendent.—William Brophy. Salary, $800. Office, 10 Bigelow Court. Elected in January, by City Council in convention.

The telegraph, constructed at a cost of $17,000, was accepted by the city, July, 1871. Alarm is given instantly from the Alarm Boxes to the office of the Fire Department, to each of the engine houses, to the house of each engineer, and at the police office, the number of taps indicating the box from which the alarm is given. The taps can also be heard at each of the other boxes. Keys to the boxes are in the hands of the police, and the nearest responsible resident to each box.

EXPLANATION.—For a fire near box 4, the bells will be struck 4 times, 2½ seconds apart; then after a pause of 20 seconds, 4 times again, and so on. For a fire near box 45, the bells will give 4 strokes (for the tens), and after a pause of 7 seconds, 5 strokes; to be repeated at intervals of 20 seconds.

Two strokes of Bell are given for a recall when fire is out.

Three strokes of Bell are given for a general alarm.

SANFORD & CO., *FINE LEATHER GOODS. FINE STATIONERY, &c., 364 MAIN ST.*

For all other uses of hose at such rates as may be fixed by the committee on water. The use of all hose will be restricted as per section thirteen in Rules and Regulations.

Metered Water.—When the daily consumption is one thousand gallons or less, twenty-five cents per thousand gallons; for one thousand to five thousand gallons per day, twenty cents per thousand gallons; for from five thousand to fifteen thousand gallons per day, fifteen cents per thousand gallons.

For all amounts to any single consumer over fifteen thousand gallons per day, at such special rates as may be fixed by contract with the committee on water, provided no such contract shall be made to extend over one year from the date thereof.

Used by City.—Water supplied to the various departments of the city shall be assessed at the rate of fifteen cents per thousand gallons, the amount to be charged to the department so supplied.

Watering Streets.—Water supplied for the purpose of watering streets shall be furnished by special contract with the committee on water, and no contract shall be made under this section for a longer period than one year.

Where no specific rates are fixed by this ordinance for water, the Committee on water shall have power to fix such rates.

RULES AND REGULATIONS.

The following rules and regulations are considered a part of the contract with all parties taking and using water from the Worcester Water Works:—

1. All service pipe and its appendages laid in the streets shall be furnished and maintained at the expense of the city.

2. All pipes and other fixtures upon the premises outside of the buildings of any taker shall be furnished and laid by the city at the expense of said taker, who shall maintain, keep in repair, and protect the same from frost and other injuries.

3. All water takers shall be held by the department liable for such repairs of the fixtures upon the premises occupied or owned by them, as shall be deemed necessary to prevent waste of water.

4. No damages shall be allowed any taker for shutting off water for the purpose of doing ordinary repairs on pipes, gates, hydrants or other fixtures, or for adding or inserting new ones, or for changes of pipes at any time from one size to another, or for lowering and raising pipes in any street or highway; but twelve hours' notice shall be given to all takers before their supply of water shall be cut off, except in cases of great emergency.

5. The committee on water, or any agent or officer authorized by them, shall have access at all times to all premises where water is used, for the inspection or repairs of the fixtures, or for setting, testing or repairing meters, and also for shutting off the water from any delinquent taker by closing any faucet or cutting any pipe or pipes necessary to effect the object desired.

6. The regular water rates shall be payable annually, in advance, on the first day of June, and bills for metered water shall be payable semi-annually, on the first days of April and October.

7. If bills for water, meters, or for service pipe, materials and labor furnished, are not paid within forty days after notice from the city treasurer that the same are in his office ready for payment, the water shall be shut off from the premises which are supplied, and shall not be turned on again until all bills are paid, and in addition thereto two dollars for the expense of shutting off and letting on the water.

8. All applications for service pipe, meters, or for the use of water, must be made in writing at the office of the water registrar, by the owner of the premises or his agent, and must state fully and fairly all of the various uses to which the water is to be applied, and said owner will be held to pay all water rates upon said premises so supplied, irrespective of individual consumer or consumers, or any tenant occupying the same, and no orders for meters will be received unless given in the form prescribed by the committee on water.

9. Whenever two or more several parties, or families, are supplied with water from the same service pipe, and any one of said parties refuses or neglects to pay the water rate when due, or to comply with the published rules and regulations, the committee on water may withhold all supply from such service pipe without liability in damages to either of the other parties who may have paid his or their annual assessment.

SANFORD & CO. *WILL TAKE ORDERS FOR BOOKBINDING AT THE STORE, 364 MAIN ST.*

10. Water takers will be charged two dollars for shutting off and letting on water at the street mains, for the purpose of repairs or extensions of services upon their premises. Water takers will be charged for all services rendered upon their premises for thawing out frozen pipe, or repairing the same in any manner, or for removing obstructions from their pipes. Twenty-four hours' notice will be required for letting on or shutting off the water. All persons are hereby prohibited from opening or closing any service stop at the mains without permission from the committee on water.

11. The construction and location of private fire and other hydrants or fountains, shall be subject to the approval of the committee on water, and no charge will be made for water used from hydrants for fire purposes exclusively.

12. All injuries to service pipes or street mains caused by careless undermining, and re-packing of the earth so excavated, for the purpose of putting in any sewer, drain or other pipe, or any excavation by which any pipe, hydrant or other fixture shall be exposed, shall be chargeable to the person authorizing or causing such injury, and the expense of repairing the same shall be charged to such person, and may be recovered in an action of contract.

13. The use of hose for washing windows and sidewalks, sprinkling streets or gardens, will be allowed, not exceeding two hours per day—one hour before eight o'clock A. M. and half an hour between twelve and one, and half an hour after six o'clock P. M. The use of the hose in the public streets will be restricted to the hours above given.

14. On all premises where meters are set, the owners of the premises will be held thereafter to pay the rates according to the schedule adopted by the City Council, for the entire amount of water used upon such estates, irrespective of all under leases, or any individual consumer, or individual consumers, upon such estates. When a consumer shall prefer to pay the cost of such a meter as shall be approved and set by the committee on water, together with the cost of putting in and of maintenance, rather than to pay schedule rates or for the quantity estimated, a meter will be put in at the expense of the consumer, and he shall ever after be held to pay rate thereby until released therefrom by the committee on water.

15. The committee on water reserve the right to put in a meter at the cost of the city, in any case where it is deemed for the interest of the city so to do, and charge for measured water, instead of being governed by the schedule rates. No meter will be allowed to be set or used on the waterworks unless approved by the committee on water.

BOARD OF HEALTH.

Established by legislative enactment in 1877.

The City Physician, *ex-officio;* Albert A. Lovell, salary $700, fixed by Committee on Finance, term expires Feb. 1883; Henry Griffin, term expires Feb. 1882. Term 2 years. Appointed by the Mayor and Aldermen.

REGULATIONS.

The following Regulations are established by the Board of Health for the public health and safety:

Privies, &c.

RULE 1. Every tenement in said city, used as a dwelling house, shall be furnished, whenever practicable, and when it can be done without unreasonable expense, with a sufficient drain under ground, to carry off the waste water, into a common sewer or reservoir; and also with suitable water closets, or with a privy, the vault of which shall be under ground, built and kept in the manner prescribed in this chapter, and of sufficient capacity for the number of occupants in such tenement.

RULE 2. Every vault or privy shall be so constructed that the inside of the same shall be at least three feet distant from the line of every adjoining lot, unless the owner of such lot shall consent or agree otherwise; and also three feet from every street, lane, passage way or public place; and every such vault or privy shall be built in a thorough and substantial manner, and kept water tight, and its contents shall never be within eighteen inches of the surface of the ground. And whenever any privy or vault shall become offensive, the same shall be cleansed. In case the condition or construction of any vault or privy shall be different from the requirement of this section, the Board of Health, after forty-eight hours' notice to the occupant requiring him to cleanse said vault, may have the same cleansed, repaired, altered or removed, as may be necessary, and shall charge the expense incurred in so doing to the

SANFORD & CO., *BOOKSELLERS, STATIONERS, BLANK BOOK MANUFS. AND PRINTERS, 364 MAIN ST.*

owner, or party occupying the estate in which such privy or vault may be.

RULE 3. No privy or water closet, not having a water tight vault, shall be maintained without a tight drain, to convey the contents thereof to a proper reservoir or to the common sewer: and no such reservoir shall be established within twenty feet of any well, spring or source of water used for culinary purposes; and such reservoir shall be at least twenty feet from any such water source. Provided, however, that earth privies or closets, where dry earth or ashes is daily added to the deposit vaults in sufficient quantity to absorb all moisture, and the entire contents are removed weekly, may be established.

RULE 4. No privy or vault shall be opened in any manner or at any time, than at such time and in such manner as the Board of Health may direct. No person shall remove the contents of any vault or privy except in a water tight cart, wagon or box, and no person conducting such cart or wagon shall leave or permit the same to stop or stand in, or pass through any of the streets or highways, or public places of the city, at any other time than during the night, between the hours of ten o'clock P. M. and four o'clock A. M.; *provided:* that in the months of December, January, February and March, the contents of such vault or privy may be conveyed over and through said streets at night, between the hours of ten o'clock P. M. and five o'clock A. M.

RULE 5. No person shall remove or carry through any public street, highway or square of the city, the contents of any vault or privy, unless the person removing the same, and the cart, wagon or other conveyance in which the same is carried shall be licensed for such purpose by the Board of Health.

RULE 6. No person shall bury the contents of any vault or cesspool upon any premises in the city, or cause or allow any filthy or bad smelling water to run out or be thrown upon the surface of the ground on any premises owned or occupied by him.

Drainage.

RULE 7. No privy vault, or waters from any sink drain shall be permitted to overflow, or run upon the surface of the ground, or upon any street or sidewalk, or into any street gutter. All such vaults shall be thoroughly cleaned out and the contents thereof removed once in each year, and oftener if the Board of Health so direct.

RULE 8. No sewer drain, not water, tight, shall be allowed to pass within twenty feet of any well, or other source of water, used for culinary purposes, and no person shall allow any pool of stagnant water to be and remain upon his premises, after notice to remove the same by the Board of Health.

RULE 9. Whenever it shall appear to the Board of Health that any cellar, lot or vacant land is a nuisance, or in such condition that it may, probably, become dangerous to the public health, they shall cause the same to be drained, filled up, or otherwise prevented from becoming or remaining a cause of nuisance or sickness, and shall charge all reasonable expenses incurred in so doing, to the owners or parties occupying such cellar, lot or land; *provided:* that notice shall have been first given, and forty-eight hours thereafter allowed, as provided in Rule 2.

RULE 10. The owners and occupants of estates abutting on a public sewer shall cause such estates to be connected by proper drains with such public sewer. Whoever neglects or refuses to comply with such regulation, within thirty days from publication hereof, shall forfeit a sum not exceeding twenty dollars for each day that such neglect or refusal continues.

Animals, &c.

RULE 11. No animals affected with an infectious or contagious disease, shall be brought within the limits of the city. No diseased animal, or its flesh shall be sold or offered for sale; and no decayed, diseased or unwholesome meat, fish, vegetables, fruit or other article of food shall be sold, or offered for sale, in the city.

RULE 12. No person shall keep any swine, or goats, within two miles of the City Hall, except the keeper thereof be licensed to keep the same by the Board of Health, and when so licensed, said animals shall be kept in a manner prescribed by the Board.

RULE 13. All putrid, decaying, or decayed animal or vegetable matter shall be removed from cellars and outbuildings, on or before the first day of June in each year. No fish, slaughter-house offal or other decaying animal matter shall be left or permitted to remain upon the land for purposes of fertilization, without being ploughed in, or otherwise rendered inoffensive.

House Offal.

RULE 14. Each family shall have a properly covered receptacle for swill and house offal until the same is removed.

RULE 15. Every occupant of any building in this city shall keep such building (so far as it is within his control) and the yard belonging thereto, free from all filth and substances liable to produce offensive odors.

RULE 16. No person shall burn, on premises occupied by him, any garbage, refuse woolen, silk, leather or India-rubber goods or other substances, so that the same shall evolve offensive odors and gases while burning.

RULE 17. No person shall deposit or permit to be deposited by any one occupying his premises, any house offal, brine, bones, dead animals, old leather, decayed fruit or vegetables, or any other rubbish, in any catch basin, street, lane, alley or public grounds of the city. Further, no person shall clean, scale or wash fish or meat upon any street, lane, alley or public grounds of the city.

RULE 18. No person shall transport fat, bones or any decayed, putrid or vile-smelling animal or vegetable substances, through any of the public streets, lanes, alleys, or public grounds of the city, except in water-tight, securely covered vessels, from which no odors can escape.

Slaughter-Houses, &c.

RULE 19. No slaughter-house or abattoir shall be established or used as such within the two-mile circle (the City Hall being the centre), and none elsewhere within the limits of the city, unless kept free from all obnoxious smells, and all offal shall be removed daily therefrom. No melting or rendering house shall be established or used as such within the limits of the city, except by permission and location of this Board.

RULE 20. No manufacturing or other business giving rise to obnoxious or injurious odors, shall be established or continued within the city limits, except in such locations as this Board shall assign, and all persons having any control of existing manufactories, stables and fish markets, shall use all means available to render them inodorous and free from all obnoxious smells.

Contageous Diseases.

RULE 21. Every person, in whose dwelling there shall break out a case of cholera, yellow fever, small-pox or varioloid, shall immediately notify the Board of Health of the same, and, until instructions are received from the Board, shall not permit any clothing or other property that may have been exposed to infection to be removed from the house, nor shall any occupant take up a residence elsewhere without consent of the Board.

RULE 22. Any physician who may know of or be called to a case of either of the diseases specified in the foregoing regulations, shall at once report such case to the Board of Health, and receive their instructions in regard thereto; and whenever there shall come under the observation of any physician such number of cases of scarlet fever, diphtheria, typhoid fever, dysentery or spotted fever, so called, as in his opinion to justify the belief that any considerable epidemic thereof exists, he shall at once report the same to the Board, with such suggestions in regard thereto as may seem to him expedient.

RULE 23. All persons affected with either of the diseases specified in Rule 21, and all articles infected by the same, shall be immediately separated from all persons liable to contract or communicate the disease, and none but nurses and physicians shall be allowed access to persons sick with said diseases; and no person sick with any of said diseases shall be removed at any time, except by permission and under direction of the Board of Health, but all persons infected with either of said diseases who cannot be properly quarantined, may be removed, according to law, to such hospital or other place as the Board of Health direct, and no person shall obstruct, hinder or oppose such removal, and when any person dies of either of said diseases, the body shall be buried under direction of the Board of Health, and no person shall obstruct, hinder or oppose such burial.

RULE 24. All bedding, and personal clothing or other personal property affected with contagion or infection, shall be disposed of or treated as the Board of Health may direct.

RULE 25. All bedding, or other personal property, liable to propagate any of the diseases mentioned in rule twenty-one, shall be at once properly cleansed, and fumigated, or *destroyed*, and the Board of Health, if they deem it expedient, may cause the same to be so cleansed, or destroyed.

RULE 26. No person or article liable to propagate a dangerous disease, shall be brought within the limits of the city, without the special consent and direction of the Board; and whenever it shall appear to any person that such person or article has been brought into the city, immediate notice thereof shall be given to the Board, specifying its location.

RULE 27. 1.—No person shall go about, in, or through the streets, squares, or highways of the city, collecting, carrying, or removing swill or offal, unless duly authorized, and licensed, by the Mayor and Aldermen, or Board of Health.

2.—All swill or offal collected and carried through the streets, squares, or highways as before provided, shall be put and carried in a close covered vehicle, box or other tight vessel, and shall be taken away, and removed not less than three times in each week.

WORCESTER COUNTY FREE INSTITUTE

OF INDUSTRIAL SCIENCE.

Founded in 1868.

BOARD OF TRUSTEES.—*President*, Stephen Salisbury; *Secretary*, Daniel Merriam; *Treasurer*, Philip L. Moen; George F. Hoar, Charles H. Morgan, David Whitcomb, Lucius J. Knowles, B. D. Marshall. *On the part of the Board of Education*, William W. Rice; *ex-officio* His Hon. Mayor Samuel E. Hildreth.

FACULTY. — *Principal and Professor of Chemistry*, Homer T. Fuller; *Professor of Theoretical and Applied Mechanics*, George I. Alden, B. S.; *Professor of Drawing*, George E. Gladwin; *Professor of Mathematics and Civil Engineering*, John E. Sinclair, A. M.; *Professor of Physics*, Alonzo S. Kimball, A. M.; *Professor of Modern Languages*, Edward P. Smith, A. M.; *Professor in Mathematics*, Thomas E. N. Eaton, A. M.; *Instructor in Languages*, U. Waldo Cutter, B. S.; *Instructor in Field Work and Topography*, John P. K. Otis, B. S.; *Assistant in Chemistry*, Walter U. Barnes, B. S.; *Superintendent of Machine Shop*, Milton P. Higgins. *(See business notice, pages* 614 *and* 615*).*

The object of the Institute is to furnish a training school for young men of moderate means, or even without means, in which they can receive an education in the branches not usually taught in high schools and academies, combined with practical instruction in the mechanical and scientific pursuits. Book learning is combined with trade learning, and the student receives a thorough knowledge in the scientific part of the trade or profession he proposes to follow, inculcated by the practical application, from day to day, in the machine shop or laboratory, of the scientific facts obtained from books or lectures. The ultimate aim of the Institution is the elevation of the mechanic, by giving him thorough and complete scientific knowledge on which he may base his future work. It is intended that any graduate from the department of mechanics shall be fitted to assume the responsibility of superintending any department of mechanical work to which he has turned his attention, and to understand not only its practical details, but also its scientific principles.

Any graduate from the department of civil engineering shall be qualified to do any work required of civil engineers, and any chemist or designer shall be ready for work required of him. Conditions of admission: Knowledge of the common English branches and algebra.

Instruction free to residents of Worcester County. To others, $150 a year. The school year is divided into two terms. Number of Students, 125. Instruction given by recitations, practice and lectures.

RECITATIONS.—The classes recite in small divisions, and time enough is allotted to each recitation to secure the utmost thoroughness. The adjustment of the different elements in the course of study, and the time assigned to each are set forth in the hour-plan.

PRACTICE.—At the middle of the junior year each student chooses a department, under the advice of the instructors, and from this time to the end of the course devotes to it his practice time of ten hours each week, and the whole of the month of July; the mechanical engineers in the shop, the architects in an architect's office in the city, the civil engineers in the field, and the chemists in the laboratory. All the students are required to attend these exercises. Beginners in mechanics are required to enter the school a half year in advance of others.

LECTURES.—These are given by the professors and by non-resident professors, on various subjects. The students are in all cases required to pass an examination on the lectures.

EXAMINATIONS.—Written examinations are held twice a year, and the rank of the student is thus determined. Reports of these examinations are sent to parents and guardians. At the annual commencement, the senior class is subjected to a public examination conducted by a committee invited from the community at large.

FREE PUBLIC LIBRARY.

NOS. 16 AND 18 ELM STREET; FOUNDED DECEMBER 28, 1859.

Directors:—Chosen in December by City Council, in convention.

Francis A. Gaskill, Samuel D. Harding;	*terms expire*	*December*	31,		1883.
Thomas J. Conaty, William Dickinson;	"	"	"	"	1884.
Clarendon Harris, Samuel D. Nye;	"	"	"	"	1885.
Samuel A. Porter, Albert Wood;	"	"	"	"	1886.
Jonas G. Clark, Francis H. Dewey;	"	"	"	"	1887.
Charles M. Lamson, James E. Estabrook;	"	"	"	"	1888.

Librarian.—Samuel S. Green; salary, $2,500; office hours, 10 A. M. to 1 P. M., 3 to 6 P. M.; Saturdays, also, 7½ to 8½ P. M.; Sundays, 3 to 5 P. M.

Assistant Librarians.—Sarah F. Earle, salary $700; Jessie E. Tyler, salary $600; Lucy A. Young, salary $600; Ellen L. Otis, salary $500; M. Jennie Barbour, salary $500; chosen by the Directors.

The circulating department of the Library is open for the delivery and return of books from 9 A. M. to 8 P. M.; Saturday, open until 9 P. M.

The upper reading room, which is the room of the Green Library, is open from 9 A. M. to 9 P. M.; the lower reading room 8 A. M. to 9½ P. M.

Sunday, both reading rooms open from 2 to 9 P. M.; also the library for purposes of reference.

The circulating department of the Library contains 22,994 volumes. These books can be freely used by citizens who have reached the age of fifteen years. *Occasionally*, temporary residents are allowed the use of them, by giving satisfactory guarantees of their return.

There is an intermediate department of 12,192 volumes. Books in this department can be taken out under certain restrictions.

The reference department, or Green Library, consists of 20,566 volumes. These were most of them given to the city by the late John Green, M. D., or have been purchased with the income of the fund left by him to endow this department. By a condition of Dr. Green's will, they must be read in the building, every facility within the limitation of the will being given for their perusal. Valuable books on a great variety of subjects are to be found in this department. Special pains have been taken to collect Dictionaries and Encyclopedias in all branches of knowledge; and books likely to prove useful in developing the industries of the city, or in assisting mechanics, will be freely purchased in the future as in the past. New York, Boston, Providence, New England, and Philadelphia Directories, and late editions of comprehensive Atlases, can always be found in the Green Library.

A manuscript catalogue is kept, closely written up, for the use of book-seekers and officers of the Library.

The books of the Worcester District Medical Society are kept in the Free Public Library building, and may be consulted on the same easy conditions which prevail in regard to the use of the Green Library.

The Reading Rooms contain 248 papers and magazines, American and foreign. These include Worcester, Boston and New York newspapers, and news sheets from various sections of New England, the West and South, and from the principal cities of Great Britain; also the principal literary and scientific journals, and the best of the magazines and reviews of England and America. A review and newspapers in the German language, reviews and a scientific journal from Paris, two Canadian papers, one in the French language, and two Swedish papers are subscribed for. A specialty is made in the Reading Rooms of papers and magazines which treat of mechanical and other useful applications of science.

The current numbers of Punch, the London News, the Graphic, the Art Journal, and other illustrated papers; also, bound volumes of the same can be seen here.

The Reading Rooms are mainly supplied from the income of a fund of about eleven thousand dollars, subscribed by citizens.

JUSTICES OF THE PEACE IN WORCESTER.

[MASSACHUSETTS LAWS AND RESOLVES, 1880. CHAP. 132.]

AN ACT to enlarge the powers of Justices of the Peace and to abolish the office of Justice of the Peace and of the Quorum.

Be it enacted, &c., as follows:—

SECT. 1. Justices of the Peace shall hereafter have and exercise the powers and authority now conferred by law upon Justices of the Peace and of the Quorum, except the right to act as magistrates for the examination of poor debtors under the provisions of chapter one hundred and twenty-four of the General Statutes and acts in amendment thereof. They shall also have jurisdiction and the right to act in any and all the counties; *provided*, that nothing herein shall be construed to authorize any Justice of the Peace to take bail in any judicial district other than that for which he is designated and commissioned under chapter two hundred and fifty-four of the acts of the year eighteen hundred and seventy-nine.

SECT. 2. The office of Justice of the Peace and of the Quorum is hereby abolished; but Justices of the Peace and of the Quorum now in office shall continue to exercise their powers and in all the counties, according to the tenure of their respective commissions.

SECT. 3. The provisions of this act shall apply to all Justices of the Peace now appointed and commissioned; and hereafter all appointments of Justices of the Peace shall be made and their commissions be issued for the Commonwealth.—*Approved March* 23, 1880.

HACK FARES.

Established by City Council, by an order passed May 1, 1867.

Within the Mile Circle.

The price of fare for conveying passengers to or from any place within the one mile circle, shall not exceed FIFTY CENTS for one passenger, and TWENTY-FIVE CENTS for each additional passenger, from six o'clock A. M. until 10 o'clock P. M., and from 10 o'clock P. M. until six o'clock A. M. the fare shall be FIFTY CENTS for each passenger, conveyed within the mile circle.

Within the one and one-half Mile Circle.

Within the one and one-half mile circle SEVENTY-FIVE CENTS, and when two or more adult persons belonging to the same party are carried to one place, the fare shall not exceed FIFTY CENTS.

Beyond the one and one-half Mile Circle.

Passengers carried beyond the mile and half circle may be charged special reasonable rates.

Children.

For children more than three years of age, and less than twelve years of age, HALF PRICE is to be charged for each child; and for children under three years of age, under the care of an adult person, NO CHARGE is to be made.

Baggage.

Each driver of a hackney carriage, if requested so to do, shall carry with each passenger one trunk and one valise or carpet bag, or other article, and to contain clothing, without compensation therefor; but for every trunk or other article more than two, the driver shall be entitled to demand and receive FIVE CENTS.

No Higher Rate.

NO DRIVER of any hackney carriage for the conveyance of passengers, licensed as aforesaid, SHALL DEMAND and receive a higher rate of fare than is herein provided and allowed, or shall unreasonably refuse to carry any passenger to any place in the City, at the rate of fare specified therein.

ANY PERSON WHO SHALL VIOLATE any of the provisions of this order, shall incur a PENALTY not exceeding TWENTY DOLLARS for each offense.

LEGAL HOLIDAYS.

There are six legal holidays: Washington's Birthday, 22d February; Fast Day; Memorial Day, 30th May; Independence Day, 4th July; Thanksgiving Day; Christmas Day. When the 22d of February, the 30th of May, the 4th of July or Christmas day fall upon Sunday, the following Monday is a legal holiday.

Notes falling due on Sunday or legal holiday must be paid on the day preceding, and if a legal holiday occurs on Monday, notes falling due must be paid on the Saturday preceding.

The Spy,

DAILY AND WEEKLY.

444 Main Street, - - Opposite City Hall.

The WORCESTER SPY is one of the oldest institutions of the city, having been printed here by Isaiah Thomas in 1775. This veteran patriot printer and publisher had established the MASSACHUSETTS SPY in Boston, the first number being printed there in 1770. It earnestly espoused the patriot cause, and pronounced in favor of the party of the Revolution. Its editor was, like Samuel Adams and John Hancock, one of the "Traitors" who were to be summarily executed by the British—when taken. But he was not taken; to avoid any interruption of this unpleasant character he removed his Type and Press from Boston, where first established, to Worcester, just before the affair of Lexington and Concord, and the paper has been printed in Worcester ever since.

The last number of the MASSACHUSETTS SPY issued in Boston, was dated April 6, 1775. On the 3rd of May, following, the SPY came out in Worcester, with its motto in large type as follows: "*Americans! Liberty or Death! Join or Die!*" The SPY continued a vigorous advocate of the Independence of America, burning like a calcium light through the Revolution. It lived to see the Independence of the United States secured, and has been printed uninterruptedly since, till it scores to-day its one hundred and thirteenth year.

The WORCESTER DAILY SPY, which from the first has been distinguished for its vigorous advocacy of Republican principles, has spared no effort to secure always prompt and reliable news. Started when Worcester, now a city of 67,000 persons, was but a village, the SPY has grown with its marvellous development, and is intimately allied with its past history, its present interests, and its future progress.

The first thing ever printed in Worcester was a copy of the SPY. Then, as now, the SPY was prompt with the news, giving a stirring account of the battle of Lexington. As an illustration of the enterprise of the SPY, before the day of the telegraph, this journal printed in May, 1775, the earliest published contemporary account of the capture of Ticonderoga. This account was the source from which the London periodicals of that date made up their notices of the expedition.

The SPY to-day, by its connection with the Associated Press and its thousands of miles of telegraph wire and submarine cable, is able to give each morning the daily history of the world. Its corps of correspondents will compare in excellence with that of any similar journal. It prints full and accurate market reports, home and foreign, money and stocks, and gives earliest intelligence of all movements in trade and commerce.

The SPY gives special attention to its home news, and its record of passing local events will be found prompt, full and accurate. Its superior staff of reporters and correspondents enables it to excel in this department.

The SPY is the best and cheapest advertising medium through which to reach the readers and buyers of Central Massachusetts. Those having wants to supply or the means of supplying the wants of others, cannot more surely and more profitably reach each other than through the Worcester Spy.

The terms of the Daily Spy are $8 a year, in advance; otherwise 75 cents a month. The Weekly, $2 a year.

Let every one who has a WILLCOX & GIBBS NEW AUTOMATIC SEWING MACHINE try a Spool, and see if the above is not strictly true.

MANUFACTURED BY

The A. D. Warren Thread Co.

WORCESTER, MASS.

The Best Thread in America for the Money

Every Spool measured by automatic machinery. Ask for it, and, if you cannot get it, come or send to the factory. Put up on 200, 500, 1200 and 2400 yard Spools.

OPERATORS on the different SEWING MACHINES bear willing testimony to its Superior Quality.

EXPOSITION UNIVERSELLE.

T. A. M. (Triumph of American Manufacture.)

Their brand of A. D. Warren's T. A. M. Spool Cotton (the letters signifying Triumph of American Manufacture), is fast gaining ground and bids fair to be a successful competitor of all the well-known and best Six-Cord Cotton. As the quality and strength are guaranteed to be superior, while the price is fully thirty per cent. lower, the goods are destined to have a large sale.

The only Gold Medal awarded by the New England Fair in 1878, was to this Company, for extraordinary merit and superiority of texture of the T. A. M. Cotton as a Machine Thread.

THE TOURNAPHONE

Is an altogether new musical instrument, that puts into the possession of its purchaser the means of rendering all music as grandly as the Organ.

It is not a Parrot-like Music Box, set for tunes that soon become monotonous.

The young child upon its mother's knee can play it in perfect time, and with it the family circle can sing as well as with the most skillful performer upon the costly piano or organ.

It plays everything with absolute correctness and with grand volume and expression.

It meets the wants of those who cannot give years of time to learn to play the keyboard, and generates a taste and desire for the best music. It is no more a mechanical instrument than any other, for it has far less mechanism than almost any other.

The Cost of a Term's Lessons Buys it.

No household is too poor to own this instrument; none is so rich that it will not fill and adorn a place within it, and ever be a source of pleasure to its inmates.

IT IS FULLY WARRANTED in all respects, and will be found to surpass all we say of it. A Catalogue of Music, with all desired information, will be sent upon application. Address all correspondence to the

FOREHAND & WADSWORTH

Make the Most Popular Breech-Loading Rifle and the Most Accurate Shooting of any of the Sporting Guns.

FOREHAND & WADSWORTH'S NEW BREECH-LOADING SINGLE BARREL SHOT GUN,

12 and 10 Bore.

Here is a Gun that meets the wants, and comes within the means of every man and boy. It is the simplest Gun in the Market, and has no special feature which needs instruction how to operate it. It has the Pistol Grip, Patent Rebounding Lock, Snap Fore End, and the Popular "Scott Top Snap Action," to unlock the barrel, and is the ONLY SINGLE BARREL BREECH-LOADING GUN made in the country having that desirable feature. The workmanship on it is equal to the high grade Double Gun, and every Gun is Warranted.

Our 10 Gauge Single Gun is made expressly for heavy work—Glass Ball and Duck Shooting; the weight is from 8¼ to 9¼ lbs. They are made with plain Steel and Twist Barrels. ALL THE PRINCIPAL PARTS ARE ON THE INTERCHANGEABLE PLAN. Stocks are of Walnut finely finished. Price for 12 Gauge, Blue or Nickel Finish Mountings and Frame, $15.00; 10 Gauge, $17.00. Twist Barrels, $2.00 extra for 12 Gauge; $3.00 for 10 Gauge. Full Choke Bore, extra, $2.00.

Forehand & Wadsworth's Revolvers—Double and Single Action, are the Most Popular Pistols made; and although the quality of workmanship is unsurpassed, their prices are as low as the cheap grade of Pistols, because of their unsurpassed facilities for manufacturing.

Send for their Circulars and Price Lists; you will find their prices very low.

Address, WORCESTER, MASS.

We also do NICKEL PLATING of all Descriptions. New and Enlarged Facilities.

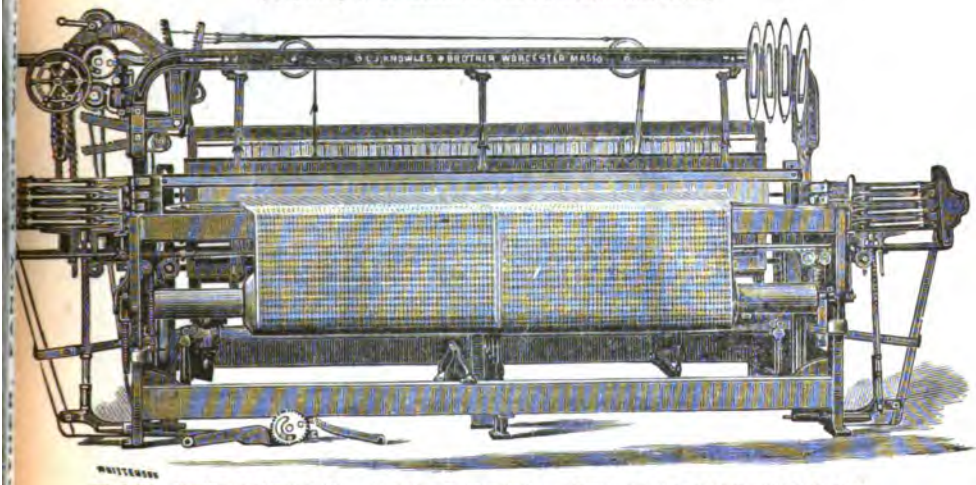
L. J. KNOWLES & BROTHER,

MANUFACTURERS OF

L. J. KNOWLES'

PATENT FANCY LOOM.

(Capacity of 25 Harnesses and 4 Boxes each end.)



FOR WEAVING ALL KINDS OF FANCY GOODS,

Either Cotton or Wool, heavy or light, with KNOWLES' PATENT DROP SHUTTLE BOX. Every motion of this Loom is positive, and cannot make a mispick, either on the harness motion or Drop Box, *and can be run at great speed.*

We also manufacture a new **PATENT CAM LOOM**, with or without Drop Box, from two to eight harnesses as desired.

We also manufacture a **TWELVE HARNESS CHAIN LOOM**, intended to take the place of the Common Cam Loom.

IT HAS A CAPACITY OF TWELVE HARNESSES,

with any length pattern required, and can be changed to any desired fancy pattern in a few moments, and thus avoids the delay and expense usually attending a change in the style of goods in mills where this is obtained by change of cams.

This Loom meets a want long felt by a class of Woolen Manufacturers who desire to make frequent changes in the style of their goods, and yet wish to avoid the complications of the ordinary Fancy Loom— as this Loom when set on any pattern is as ready to do its work, without any attention, as the simplest plain Loom known. It will run with great speed, is very easy on the warp, and requires no more attention than any Cam Loom.

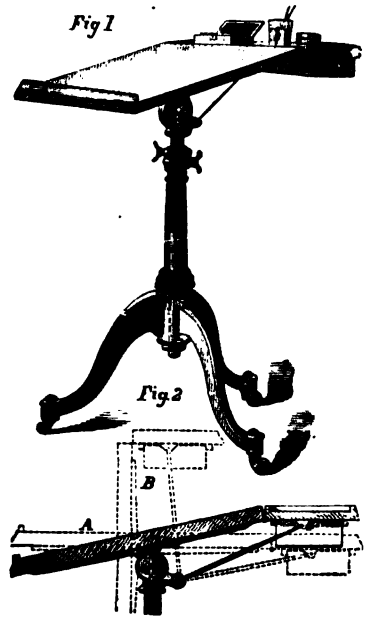
ADJUSTABLE TO ANY HEIGHT OR INCLINATION.

THIS STAND

Can be lowered or raised to any required height; top set at any inclination, and by turning back the screw at the right it is allowed to rotate so as to bring either side in front. All the adjustments are easily made, thus allowing it to be used either SITTING or STANDING with equal facility, as Reading or Speaking Stand, Writing Desk, Draughtsman's Stand, Artist's Easel, Study Table, &c.



It is just what has long been needed to hold large books for reference. THE BEST THING FOR DRAUGHTSMEN, enabling them to turn or incline their work at pleasure. THE MOST PERFECT ARTIST'S EASEL; for, by a touch, the light on the picture may be entirely changed. It is made mostly of bronzed iron, mounted on castors, with solid black walnut top, and its tasteful appearance makes it equally desirable in the office, counting room, library or sitting room.

L. COES'

GENUINE IMPROVED PATENT

SCREW WRENCHES,

MANUFACTURED BY

L. COES & CO.,

WORCESTER, MASS.

Established in 1839,

Registered March 31, 1874.

We invite the particular attention of the trade to our new Straight Bar Wrench, *widened*, full size of the larger part of the so-called "re-inforced or jog-bar." Also, our enlarged jaw, made with ribs on the inside having a full bearing on front of bar (see sectional view), making the jaw fully equal to *any* strain the bar may be subjected to.

These recent improvements in combination with the Iron Tube fitted to the shank and firmly held in place by the handle and nut (that cannot be forced out of place by use), verifies our claim that we are manufacturing the

STRONGEST WRENCH IN THE MARKET.

WELLS' BRONZE METAL

For Steam Engines and General Machinery Bearings, where great strength and durability are required.

By preventing the oxydizing of the tin in melting, a BRONZE of peculiarly firm, even texture, is produced. Has stood the most extreme tests in use. A leading loom builder says: "Your cams have lasted six times as long as the hardest cast steel." Another party says: "Your boxes have worn four times longer than the best gun metal we can get." A leading railroad man says: "Your boxes have run five years, made over 90,000 miles, and are in good condition; it is the best metal we have ever used for journals."

The Vacuum Spindle Lubricator.

(PATENTED JAN. 20th, 1880.)

The cut represents a Lubricator for Spindle Bolsters, working on the vacuum principle, and securing a more uniform distribution and greater saving of oil than has ever before been accomplished.

The operation of the bolster is apparent from a view of the annexed engraving. The oil hole "J" being in front side of the bolster, a half turn of the flange "I" allows the oil chamber "H" to be filled; upon turning it back a perfect vacuum is formed which prevents any escape of the oil when the spindle is at rest; when in motion the draft of the spindle secures a perfect lubrication through the fine joint between the fixed bushing "C" and the movable bushing "G."

Spindles fitted with this bolster June 29th, 1880, ran without refilling until the middle of February, 1881, and were then found far from being exhausted. The economic feature of this bolster lies in the fact that it can be applied to any common frame of spindles.

Apply to **SAYLES & WASHBURN**, Mechanicsville, Conn., for certificate of use.

The Patent Tool Holder.

It is for holding brad awls, and has great advantages over all other holders.

1. You never take the awl out of the handle to change it as is the case with all others.
2. Upon screwing up the thumb nut it is impossible to pull the awl out of its socket.
3. The six awls can all be changed in the time it takes to change one awl in the old way; besides, you can never drop or lose them.
4. The awls are made of the best of steel and temper.
5. The workmanship is first-class, far superior to anything of the kind in the market.
6. It will last a lifetime with fair usage.

PRICE
$1.50.

STANDARD SCALES.

Absolute Accuracy, Unvarying Accuracy, Sensitive Action, Durability,

ARE THE NECESSITIES OF A

PERFECT WEIGHING MACHINE.

All these requisites are to be found only in

FAIRBANKS' STANDARD SCALES.

They are **correct in principle.** They are **accurate.** They are **made of the best material,** and by the most skilful and careful workmen, and they combine **every improvement** which the broad experience of a large business of half a century affords.

The Manufacturers have never been induced by competition to deviate from their original purpose of making ONLY PERFECT BALANCES.

Hay, Coal and Railroad Scales, Platform and Counter Scales, Druggists', Confectioners' and Butchers' Scales, Leather, Wool, Cotton, Hide and Iron Scales, etc., etc.

☞ The entire value of the weighing scale depends upon its accuracy and reliability at all times; and any but the best are not only worthless, but may cause a heavy loss to the user. ☜
